Select the time of day that will work for you to come, this show will be different than shows we've had in the past. Each

class will have its own area and score keeper or judge. Each competitor will arrive to the stall approx 10 minutes before the scheduled time to ride.

PLEASE be completely dressed to ride. No time for changing boots, etc. Tack up the CA horse you have selected and go to the riding area for your event to start. There will be a helper to direct you. Go from the one event to the other that you've signed up for. When you complete the classes, Please take your horse to his stall and untack and you will be done. At this point we will ask you to leave to make room for the next riders. The scores for your classes will be accumulated through out the day. In the evening the results will be POSTED on Cranberryacres.com

Awards will be giving to you at your next LESSON.
